BRITISH DESIGN, PURE AND SIMPLE.

## Eco Source: Our Commitment to Sustainability

At the heart of our operations is our dedication to building a sustainable future. Through our Eco Source initiative, we are taking bold steps to minimise our environmental impact. Our textile factory now uses wind-powered weaving techniques, soy-based inks, and recycled cottons to create beautiful and sustainable products.

Nearly all of our china mugs are made with 30% recycled china, blending innovation with eco-conscious design. We're also phasing out plastic in our transit packaging, replacing it with recyclable or recycled materials wherever possible. To further reduce our carbon footprint, we consolidate shipments, cutting down on freight miles and costs.

In the coming year, you'll start seeing our Eco Source logo on packaging—a symbol of the shared commitment between us and you, our valued partners, to a greener future. Together, we can inspire positive change for the planet and the generations to come.

We create on-trend licensed and in-house brand product ranges offering strong design stories to keep us ahead of current trends.

With 30 years of experience we have a history of successful brands to our name such as Alice Tait, Jessica Hogarth and many more.

Our originality has brought us collaborations with some fabulous brands, retailers and illustrators like John Lewis, British Museum, Arsenal Football Club & RHS.

We pride ourselves on our best-in-class customer service, offering super fast order turnaround and a customer friendly stocking profile. Our team from Sales to Design Centre from Warehouse to Accounts is efficient, friendly and always go the extra mile.

View our entire product range on our new look website at [www.templeisland.com](http://www.templeisland.com) along with latest projects, eco and other news.

You can now follow our trend predictions, inspirations and activity on Instagram, we do love a bit of social media!

**Squishi Pals is our fun gang of squeezable characters designed to be irresistibly collectable and calming for little hands. Inspired by the plush character craze, these tactile companions blend cuteness with purpose. Each Squishi Pal is perfectly sized to fit snugly in a child's hand, encouraging easy squeezing, squishing and soothing fidgeting movements promoting focus and calm.**

**The carefully chosen soft texture offers both comfort and delight. Each character has a unique name and personality encouraging imaginative play. With six characters at launch and more already planned beyond, there is exciting collectability at the heart of the range.**

**Thoughtfully designed to be fun, functional and full of character, Squishi Pals blend the joy of collectable toys with the mindful benefits of imaginative play. Perfectly pocket-sized, irresistibly cute and endlessly squeezable – Squishi Pals are made to be collected, cherished and squeezed again and again.**
